Setting Up Application Environment
Docker Installation

Date	30 OCT 2022
Team ID	PNT2022TMID06756
Project Name	Skill and Job Recommender Application

Step 1:

Go the official Docker website:
***https://docs.docker.com/desktop/install/windows-install/***

Step 2:

Click that button (Docker Desktop for Windows) and download will start and it takes a few minutes to complete.

Step 3:

Go to downloads in browser (or) type **ctrl + J**, it will navigate to the download page and double-click the particular docker file.

While Installing it will take some time to complete the installation.
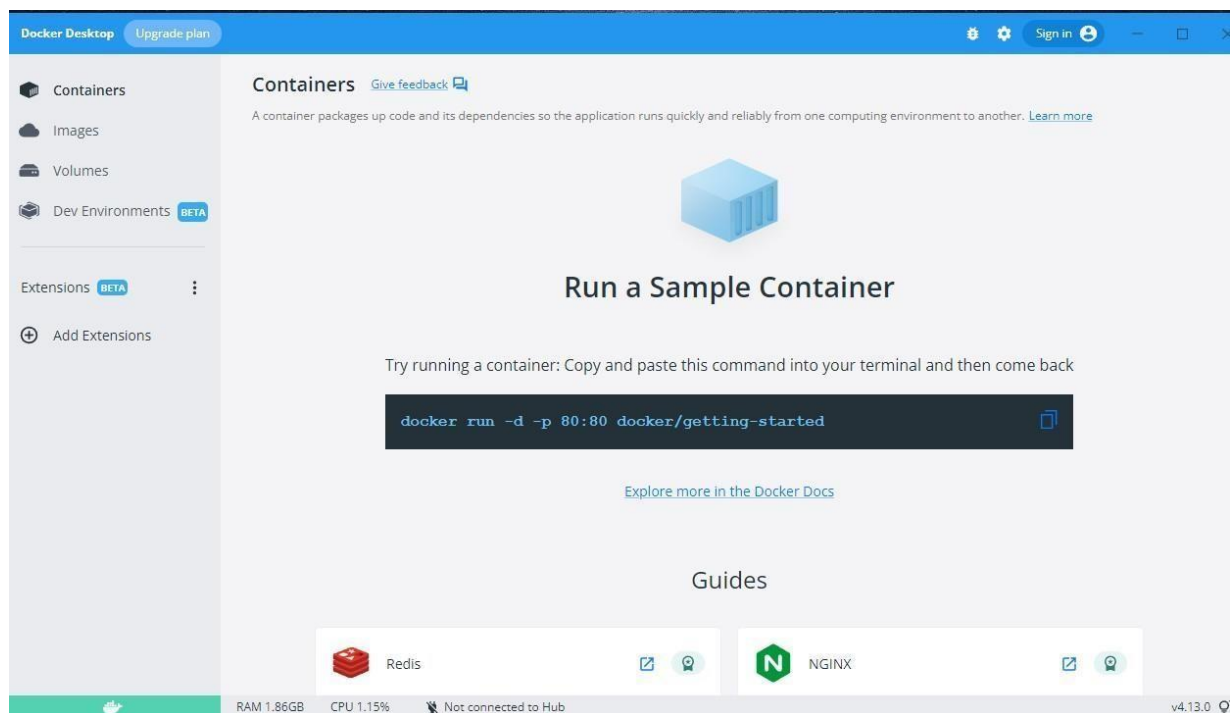

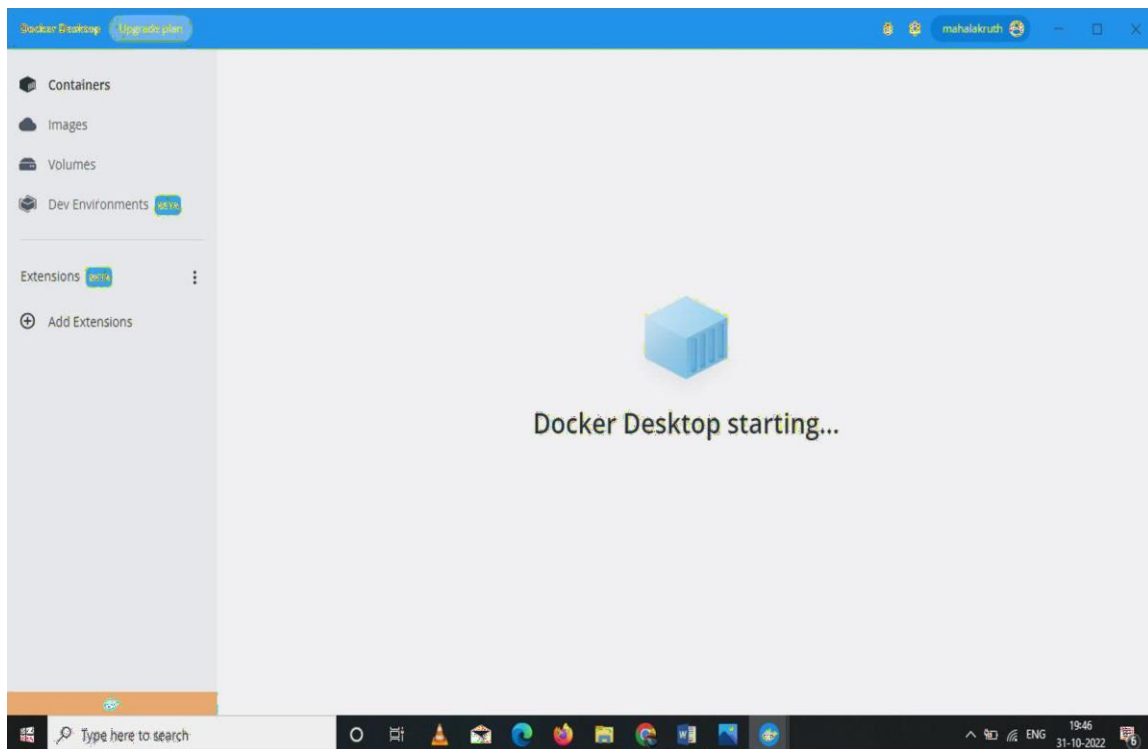

Step 4:

After that , Installation is complete. This icon was added to your desktop. Double-click the icon to start the docker app, you can register and login that app to access those credentials.

Docker will start correctly, the left bottom side was shown in green color,

Step 5:

docker will show the status of docker app working successfully.

Step 6:

Finally, the docker is installed successfully.

Step 6:
